

CONSENT CULTURE

Consent culture is a culture which normalizes the action of asking for consent and respecting whatever responses are given.

- **It affirms that each individual has bodily autonomy and maintains that boundaries (a person's right to choose what is comfortable to them) should be respected unconditionally.**
- **Consent involves an enthusiastic, affirmative, and voluntary "yes" that is not implied or assumed in the absence of a "no" and can be revoked at any time.**
- **While consent should always be given in sexual interaction, it doesn't only apply here. Consent culture should be extended to all facets of life.**

Concepts

TRANSFORMATIVE JUSTICE

Transformative Justice (TJ) is a political framework and approach for responding to violence, harm and abuse.

- **At its most basic, it seeks to respond to violence without creating more violence and/or engaging in harm reduction to lessen the violence.**
- **TJ can be thought of as a way of “making things right,” getting in “right relation,” or creating justice together.**
